Title: Nurse Midwife Coordinator
Reports To: Director of Nursing, PIH Liberia
Location: Maryland County, Liberia

Organizational Profile:

Partners In Health (PIH) is an international health organization committed to improving the health of the poor and marginalized. PIH partners with the Ministry of Health to build local and national clinical capacity and works closely with impoverished communities to deliver high quality healthcare, address the root causes of disease, train providers, advance research, and advocate for global healthcare policy change.

PIH currently has programs in Haiti, Lesotho, Liberia, Malawi, Mexico, Navajo Nation, Peru, Russia, Rwanda, and Sierra Leone. Through our partnership with Harvard Medical School (HMS) and Brigham and Women’s Hospital (BWH), we support a wide range of programs in dozens of other countries around the world.

Position Overview:

Partners In Health seeks a qualified, dynamic candidate for the position of Registered Nurse Midwife for our Liberia clinical program. The Registered Nurse Midwife will work collaboratively with the local County Health Team, JJ Dossen Hospital, Pleebo Health Center and surrounding communities and clinics to provide clinical care and strengthen reproductive and maternal child health within Maryland County, Liberia.

Specific Responsibilities:

- Work as part of a multidisciplinary team of international and national staff to provide high quality patient care to an extremely vulnerable population.
- Provide direct patient care and accompany in the management of pre-natal, antenatal, inpatient and follow-up care for women.
- Provide comprehensive sexual and reproductive health information and services including family planning counseling and services to prevent and treat malaria, tetanus, STI, HIV.
- Provide management and training in both complicated and normal pregnancies and deliveries (including Cesarean sections)
- Provide training and management in the prevention of mother-to-child transmission (PMTCT) of HIV
• Provide reproductive health services and counseling to adolescents in the prevention of teen pregnancy, transmission of STI/HIV, and sexual violence related injuries.
• Advise on midwifery’s contribution to meeting population health goals.
• Provide policy analysis, development, implementation and evaluation in collaboration with national and ministry of health strategies and guidelines.
• Work with the Monitoring and Evaluation team to ensure accurate collection of data in reproductive health, maternal child health, antenatal care and PMTCT and assist in the analysis to improve quality care delivery and outcomes.
• Provide training, clinical supervision, and mentorship to local midwives and operating room staff.
• Provide workforce planning and development.

Qualifications:

• Registered Nurse Midwife with Master’s degree in Midwifery with valid license
• Evidence of excellent teaching and mentoring skills in Midwifery
• Previous experience in Research and Abstract writing added advantage.
• Demonstrated ability to work with limited resources while maintaining quality of care
• Must have exceptional interpersonal communication skills to interact and provide feedback to senior leaders, fellow clinicians and local health care staff on sensitive and confidential issues.
• Ability to collaborate professionally with culturally diverse colleagues and constituencies.
• Ability to work independently and take initiative, as well as work cooperatively with a diverse team.
• Ability to be flexible and effective in the face of unexpected challenges.
• Must have excellent verbal and written communication skills.
• A commitment to social justice
• Ability to live in Liberia full-time is required.
