

One Day Training in Project Risk Analysis and Management

All interested individuals, corporate organizations and Project Management Specialists are informed that **Access Training Institute Liberia** will be hosting a **Day-long** Seminar in **Project Risk Analysis and Management**.

The intensive One-Day training course presents approaches to minimize Project Risk in order to maximize Project efficiency and effectiveness.

It will also help participants to gain vital knowledge in understanding key issues in Project Risk Management: meaning of risk, different approaches to Risk Management, importance of Risk Management in an organization or project and explore threats to effective Risk Management. The course explores issues of control and governance in Risk Management, influences of managerial structure on risk management, those tools and techniques needed in identifying, documenting, reviewing, evaluating, controlling and reporting Project Risk.

WHO SHOULD ATTEND?

- + Project Managers
- + Project Team Members
- + Project Sponsors
- + Those working with NGOs & those interested in becoming Project Specialists
- + People in Construction.. etc
